Safety Groups Program

Terms and Conditions of Participation

- 1.** Employers must submit their signed application form to their sponsor by December 31, 2018.
- 2.** Applicants to the Safety Groups Program must participate for at least one calendar year, and may participate for up to five completed years.
- 3.** Employers applying to participate in the Safety Groups Program must be a schedule 1 employer with the WSIB and have an account in good standing without changes or convictions under the Workplace Safety & Insurance Act. An employer that experiences a traumatic fatality will be disqualified during that year from participating in the rebate.
- 4.** Employers can participate in only one Safety Group at a time and cannot participate in the Safe Communities Incentive Program or Accreditation Program during the same year.
- 5.** Employers participating in the Safety Groups Program are required to complete 5 elements annually from the Program Element List as set out in the program guidelines. Employers must successfully complete a minimum of 3 elements to share in any potential rebate. For an element to be considered complete, all five steps of the management system have to be in place and documented.
- 6.** Employers must complete an annual baseline assessment of their workplace to identify their current prevention programs strengths and weaknesses. They will use this information to select their Program Elements and develop their action plan.
- 7.** Employer's are required to complete the Year-end Achievement Report by December 15.
- 8.** Employers must appoint a Safety Groups Coordinator to fulfill the administrative activities required as a participant in the Safety Groups Program. Should the person appointed change during the year, the WSIB should be advised.

- 10.** Employers must participate in networking activities with other group members.
- 11.** If asked, employers must cooperate with WSIB mid-year progress visits, and validation audits as part of the evaluation process. Employers selected for a validation audit will be required to provide documentation to demonstrate what they reported to the WSIB.
- 12.** An employer who declines to participate in a validation audit will receive a zero score and will also be removed from the current program, the year the audit is declined. A zero score means the firm is no longer eligible for a rebate. For example, in 2018 WSIB is auditing the 2017 program year. If a Firm declines the 2017 validation audit, they will receive a score of "0" for that audit and will be removed from the 2018 year of Safety Group participation. No rebate will be received for 2017 or 2018.
- 13.** Employers must maintain regular contact with their Safety Group Sponsor.
- 14.** Employers and their employees may be asked to participate in questionnaires, surveys or interviews as part of the ongoing Safety Groups Program evaluation.
- 15.** Employers are required to adhere to the Safety Groups Program requirements as outlined in the Employer Guidelines, current Edition.

Martha George, G.S.C President, GVCA

Message from GVCA President, Martha George:

Thank you for joining the Grand Valley Construction Association Safety Group. You have joined a very unique group. You will be successful with this program by taking advantage of the expertise of our Safety Consultant. Upon completion of the Program, your firm will have developed a Health and Safety Management System that meets the requirements as set out by the WSIB.

The Safety Group Program is about developing a **management** system of your Health and Safety Program. GVCA is here to help you through to completion!

What makes our Program unique is the support we provide. We have benchmarks and timelines in place to help you be successful.

It is important to meet the deadlines for completion of your work so that the yearend Binder Review goes smoothly.

BENCHMARKS

- December – element/topic selection
- January – February – for Returning members, work on Maintenance (review your previous years' elements)
- March – all Policies and Procedures written and developed
- June – communication of Policies to employees and training is well underway
- November – Ensure that you have completed the 5 Steps of the WSIB Safety Group Program - ensure they meet current legislation and are company specific. Evaluate your policies, communication and training for the current year and acknowledge success

If you follow this plan, and meet the deadlines, the Year End review will be simple. The only thing we will have to see at year will be evidence of your work and your final report!

You are encouraged to bring your work to each meeting and holler if you need help. We are here for you.

We have consultant time available for anyone who is struggling with the program (a maximum of 2 hours per member firm). If the task of managing this program can be overwhelming, and you do not have the staff time to successfully complete the program, you may consider hiring an outside consultant. If you choose to do this, please make sure they understand the Safety Group Program, otherwise, you will not pass the stringent requirements. Talk to our in house consultant first for advice.

Regards,
